

Stick and Peel

Type : Acqueous acrylic emulsion PSA

Code : KF

This adhesive has been formulated for peelable applications where a low initial and peelable bond is required. The adhesive has a low resin content and therefore offers good clarity and UV resistance.

TYPICAL PROPERTIES	RANGE
Application temperature	+5 → +40°C
Service temperature	-10 → +60°C
Clarity	Good
Moisture tolerance	Good
Tack	Low (typ 3N/25mm ²)
Peel strength	Low with clean removability
UV resistance	Good
Shelf life	Minimum of two years when stored at 15-25°C; 45-55% RH

NB This adhesive is generally suitable for most Book Covering applications where good removability without leaving residue is required. However, due to the wide variation of finishes and material types available, this product should be tested by the customer to ensure suitability of use.

Dry film adhesive conforms to the requirements of BS 5665: part 3: 1989 (equivalent to EN71: part 3: 1995) "Safety of Toys, part 3: migration of certain elements".
