

Super Peelable Adhesive

Type : *Acqueous acrylic adhesive*

Code : *SL*

This adhesive has been formulated for applications, which require a low to medium tack and clean removability. It has been designed for paper labelstock applications and provides excellent removability from glass, with good removability from paper and steel substrates.

TYPICAL PROPERTIES	RANGE
Application temperature	+5 → +40°C
Service temperature	-10 → +80°C
Clarity	Good
Moisture tolerance	Good
Tack	Low
Peel strength	Low
Conversion	Excellent
Shelf life	Minimum of two years when stored at 15-25°C; 45-55% RH

The end user should ensure suitability of this product for specific applications, as the adhesive may not be readily removable from certain substrates.

This product is not intended for direct food contact.
