

Super Permanent

Type : *Aqueous compounded high tack
emulsion PSA*

Code : *SP*

This adhesive has been designed for paper and filmic laminates. It is essentially resin free and offers excellent plasticiser tolerance, good UV resistance, high clarity and good moisture tolerance. It gives excellent adhesion to difficult surfaces including polyolefin films.

This adhesive also has excellent conversion and ageing characteristics.

| TYPICAL PROPERTIES | RANGE |
|-------------------------|--|
| Application temperature | +5 -> + 40 ° C |
| Service temperature | -10 -> + 80 ° C |
| Clarity | Excellent |
| Moisture tolerance | Good |
| Tack | High |
| Peel strength | High |
| UV resistance | Good |
| Conversion | Excellent |
| Shelf Life | Minimum of two years when stored at 15 - 25 °C: 45 - 55% RH |

This adhesive is not intended for Direct Food contact. However all ingredients used in the manufacture of this adhesive are listed under F&DA 175.105 or BGVV Chapter XIV for indirect food contact.
