

# High Tack Strength Pure Acrylic Adhesive

Type : Aqueous pure acrylic emulsion PSA      Code : HT (A)

This adhesive has been formulated for applications that require a good final permanent bond. It is resin free and therefore offers excellent clarity and UV resistance.

TYPICAL PROPERTIES	RANGE
Application temperature	+5 → +40°C
Service temperature	-10 → +60°C
Clarity	Excellent
Moisture tolerance	Good
Tack	Moderate
Peel strength	Good initial adhesion, building to a permanent bond
UV resistance	Good
Shelf life	Minimum of two years when stored at 15-25°C; 45-55% RH
