

Uncoated Direct Thermal

Code : NT8

This high sensitivity non top coated chemi-thermal label paper is particularly suited to flexographic printing, gravure, offset and letterpress processes.

Mainly used for non critical bar code labelling applications.

No resistance to oils and greases.

TYPICAL PROPERTIES	MEASUREMENT	TARGET	RANGE
Substance	gsm	74	+/- 8
Caliper	μ	82	+/- 8
Brightness - ISO 2470	%	75 min	
Saturation density - Macbeth		1.00 min	
Initiation temperature	°C	80 max for D = 0.2	
Effective temperature	°C	90 max for D = 0.8	
Storage temperature	°C	35 max	
Storage humidity	% RH	85 max
